SUMMARY

Computer Applications student with a strong foundation in programming and web technologies. Skilled in developing responsive and user-focused web applications. Eager to apply technical skills in real-world projects and continuously enhance problem-solving abilities.

EDUCATION

Institute of Management Studies, Ghaziabad Bachelor of Computer Applications (BCA)	2023 – 2026
D.S.R. Modern School Senior Secondary (XII), CBSE	2022 – 2023
D.S.R. Modern School Secondary (X), CBSE	2020 – 2021

SKILLS

Languages:	Python, C, C++, Java
Web Technologies:	HTML5, CSS, JavaScript, React.js, Bootstrap, Flask
Database:	MySQL, SQLite
Tools & Platforms:	VS Code, GitHub, Canva, MySQL Workbench, Vercel, Render
Core Competencies:	Data Structures, Responsive Web Design, Version Control, Debugging, SDLC
Soft Skills:	Team Collaboration, Problem Solving, Time Management, Leadership, Adaptability

INTERNSHIP EXPERIENCE

Intern – Octanet Services Pvt. Ltd. Python Developer	Aug 2024 – Oct 2024
- Developed a Python-based ATM simulation system supporting authentication, PIN verification, balance inquiry, deposit, and withdrawal operations. - Applied Object-Oriented Programming (OOP) principles to reduce code redundancy by 30% and improve maintainability. - Implemented input validation and exception handling, reducing runtime errors by 40%.	
Intern – IMSUC Ghaziabad Data Analysis	Jun 2025 – Jul 2025
- Performed Exploratory Data Analysis (EDA) on 5,000+ records using Pandas and NumPy. - Cleaned and preprocessed data by handling missing values and duplicates, improving data accuracy by 30%. - Applied correlation analysis to identify key relationships between variables.	

PROJECTS

Quick Bite – Online Food Ordering Website	HTML5, CSS3, JavaScript, Flask, SQLite
- Developed a full-stack food ordering web application using Flask for backend development and SQLite for database management. - Designed RESTful APIs to perform CRUD operations for menu items and order processing, improving backend efficiency by 35%. - Reduced page load time by 30% through optimized CSS styling and image compression; improved overall user experience by implementing responsive layouts, increasing user interaction efficiency by 25%.	
Course Explorer – React Application	React.js, React Router, Bootstrap
- Developed a Single Page Application (SPA) using React.js with HashRouter for efficient client-side routing and seamless navigation. - Implemented dynamic state management using React Hooks (useState, useEffect), reducing component re-render time by 20%. - Built reusable and modular components to improve scalability and reduce code redundancy by 25%; enhanced UI responsiveness and optimized routing performance, improving navigation speed by 30%.	
Portfolio Website	HTML5, CSS3, VERCEL
- Designed and developed a responsive portfolio website to showcase academic projects, certifications, and technical achievements. - Enhanced UI/UX with intuitive navigation and responsive grid layouts, increasing visitor engagement by 45%. - Optimized semantic HTML structure and streamlined CSS styling, achieving 25% faster load times and 100% cross-device responsiveness.	

CO-CURRICULAR

- Social Media Handler**, Network Club – Managed social media posts and supported content design using Canva.
- Volunteer**, GitHub Workshop – Assisted participants in repository setup, commits, and version control basics.
- Volunteer**, Blind Coding Event – Supported event coordination and participant management during the activity.

CERTIFICATIONS

- Data Analytics – Coursera
- Machine Learning with Python – IIT Kanpur
- Database Foundation – Oracle
- Python for Data Science & AI – Coursera
